

EXPERIMENT 14:

AIM:

To check subject-verb agreement in a sentence.

PROGRAM:

```
sentence = input("Enter sentence: ")
```

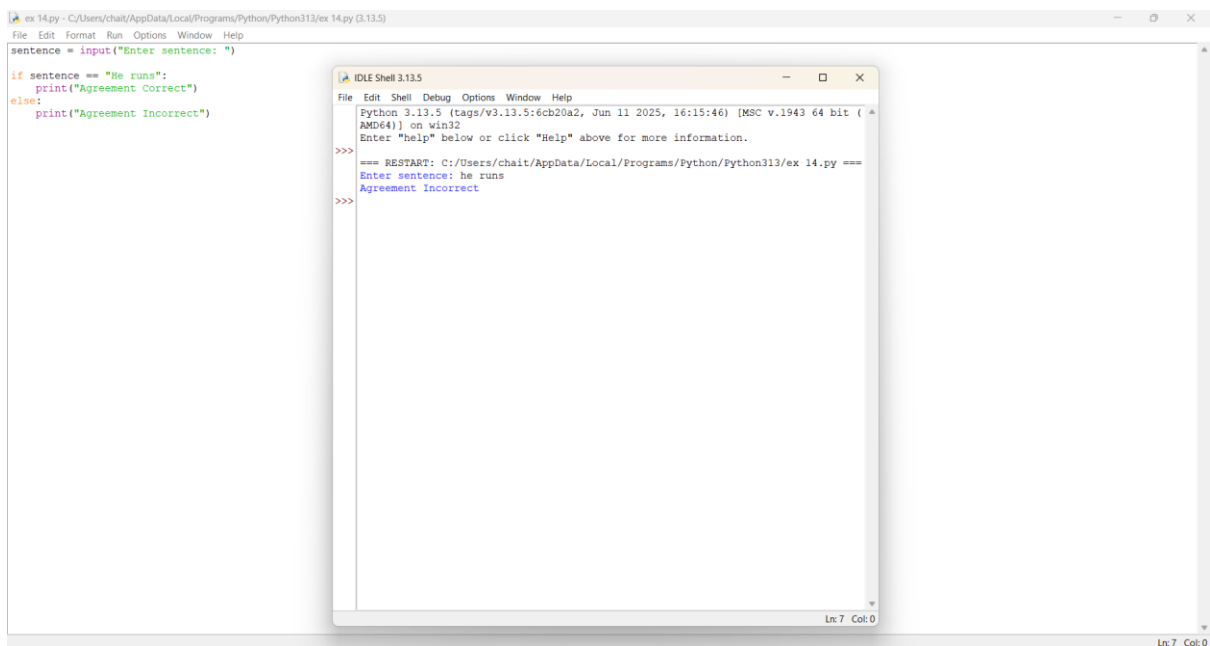

```
if sentence == "He runs":
```

```
    print("Agreement Correct")
```

```
else:
```

```
    print("Agreement Incorrect")
```

OUTPUT:

The screenshot displays a Python IDE window titled 'ex 14.py - C:/Users/cha1t/AppData/Local/Programs/Python/Python313/ex 14.py (3.13.5)'. The code editor contains the following Python code:

```
sentence = input("Enter sentence: ")

if sentence == "He runs":
    print("Agreement Correct")
else:
    print("Agreement Incorrect")
```

Overlaid on the IDE is a smaller window titled 'IDLE Shell 3.13.5'. It shows the execution of the program. The prompt 'Enter: "help" below or click "Help" above for more information.' is displayed. The user has entered 'he runs', and the program has outputted 'Agreement Incorrect'. The shell window also shows a restart message: '=== RESTART: C:/Users/cha1t/AppData/Local/Programs/Python/Python313/ex 14.py ==='.
